TUYISHIMIRE Hilbert

Software Developer at Uruti Hub
Kigali, Kigali City, Rwanda

Summary

I'm a Full-Stack Developer passionate about transforming ideas into seamless, high-performance digital experiences. Whether it's crafting clean, intuitive user interfaces or engineering reliable, scalable backends, I focus on building solutions that not only work flawlessly but also feel great to use. I thrive on solving real problems through technology—and I'm always up for building something amazing.

Experience

W3villa Technologies

Software Developer

January 2025 - June 2025 (6 months)

Contributed to the design and development of scalable web applications for global clients across fintech, logistics, and e-commerce sectors.

Built and integrated robust backend services and dynamic front-end features using modern tech stacks.

Collaborated with cross-functional teams in agile sprints, participating in planning, standups, and retrospectives.

Conducted code reviews and implemented improvements to optimize performance, security, and maintainability.

Ensured delivery of high-quality, tested code within tight deadlines in a remote, fast-paced development environment.

Uruti Hub

2 years 1 month

Backend Software Developer

March 2023 - September 2024 (1 year 7 months)

Collaborated with cross-functional teams to gather system requirements and design scalable backend architectures.

Developed and maintained robust APIs and microservices to support frontend functionalities.

Participated in regular code reviews, debugging sessions, and performance optimization.

Contributed to ensuring code quality, security, and adherence to best practices.

Technologies used: Node.js, Express, REST APIs, MongoDB/PostgreSQL, Git.

Full Stack Software Developer

September 2022 - March 2023 (7 months)

Built and maintained full-stack web applications with modern technologies.

Designed responsive front-end interfaces using modern frameworks and integrated them with secure, high-performance backend systems.

Participated in the full SDLC, from planning and implementation to testing and deployment.

Collaborated with UI/UX designers and product teams to deliver seamless user experiences.

Technologies used: React.js, Vue.js, Node.js, Express.js, PostgreSQL, Git, Docker.

Andela

Full Stack Engineer

December 2022 - September 2023 (10 months)

Acquired skills: JSON, JavaScript, jQuery, HTML5, CSS, UX/UI Design

KLab Inc.

Full Stack Engineer

January 2022 - August 2023 (1 year 8 months)

Acquired Skills: Vue.js, Algorithms, React.js, Express.js, Semantic HTML, Node.js, HTML5, CSS

alx_africa

Software Engineer Intern

February 2021 - September 2022 (1 year 8 months)

Acquired Skills: C, Python, Django, Flask, C++

Education

The African Leadership University

Bachelor of Engineering - BE, Computer Software Engineering · (March 2023 - 2026)

Ecole des Sciences Byimana

High School Diploma · (2016 - 2022)
